Executive Summary

The major findings of the 1989 Graduate Follow-Up Survey, as outlined in this **Employment Statistics Report**, are as follows:

- 2,217 **graduates** from 105 training programs were surveyed. The response rate was 58%, or 1,276 **respondents**.

- 81% of all respondents were **employed** at the time of the survey. 14% were **unemployed**, i.e. not employed and looking for work, and 5% were **not in the labour force**, i.e. not employed and not looking for work.

- 89% of the **employed** respondents were in **training related occupations**, i.e. those requiring all or some of the skills gained in their training program. 82% of those employed in training related occupations were working **full time**, i.e. 30 or more hours per week.

- 75% of the respondents who were **unemployed** at the time of the survey had worked at some time since completing their training.

- 97% of **all respondents** rated their training as good to excellent.

- 94% of **employed respondents** indicated that their training had prepared them appropriately for the job they had obtained.

- 14% of **all respondents** were enrolled in some form of further training at the time of the survey.

- $1,658/month was the average salary for respondents in **full time, training related employment**.

- 48% of **respondents in training related employment** were working in either Regina or Saskatoon.

General Information

Saskatchewan Education conducts an annual survey of graduates of post-secondary programs offered through the Saskatchewan Institute of Applied Science and Technology (SIAST). This **Graduate Follow-Up Survey** collects data and opinions on a variety of questions related to the graduates' employment status, occupation, industry, location of employment, salary, relationship of training to occupation and general evaluation of training received.

The **Employment Statistics Report** provides information on training programs which is not readily available elsewhere. It is used by career counsellors and students in selecting programs of study. Those planning future training or studying changes in labour market conditions also find the information useful.

The Employment Statistics Report presents selected results from the 1989 Graduate Follow-Up Survey. Summary information for the overall respondent population and for broad program groups is presented in the Overview of Results section. Employment related information is shown for each SIAST training program in the Program Statistics section. For further information about these and other programs, please contact:

General Information

CROSSROADS: Information about SIAST and other post-secondary education programs may be obtained through the CROSSROADS computerized career information system. CROSSROADS provides information about programs and the institutions which provide them, and how high school subjects and occupations are linked to these post-secondary programs. CROSSROADS is designed to help prospective students, counsellors and instructors find specific information quickly and effectively. The CROSSROADS system can be accessed through any SIAST campus or Regional College or through several high schools in Saskatchewan. For further information about the system please contact:

Your comments about the Employment Statistics Report are invited. Should you have comments or wish to order additional copies, please complete and return the **Feedback Questionnaire** included with this report.

Methodology

Scope

The **1989 Graduate Follow-Up Survey**, on which this report is based, collected data on 1988-89 graduates from all Saskatchewan Institute of Applied Science and Technology (SIAST) campuses: Kelsey in Saskatoon, Palliser in Moose Jaw, Wascana in Regina and Woodland in Prince Albert and Meadow Lake. The training programs surveyed included certificate or diploma programs offered on-campus and lasting 12 weeks or longer. Most graduates completed their program in the spring and were surveyed six months later in December.

Programs not included in the survey were Apprenticeship, Saskatchewan Skills Extension, Saskatchewan Skills Development, upgrading, employer based or other special programs. Also, new programs, which had not yet produced graduates, were not included.

Procedures

SIAST campuses supplied most of the graduate lists (names and addresses) to Saskatchewan Education; some others were obtained using the department's Student Information System. A questionnaire with covering letter was mailed to each graduate with a postage-paid return envelope. The graduate was asked to complete a four page questionnaire (see Appendix A). Those graduates who had not returned a completed questionnaire within a month of the initial mailing were sent the same questionnaire in a second mailing.

A number of questionnaires were returned as non-deliverable, usually because of the lack of a current address as graduates tend to move after graduation. The response rate was not adjusted for non deliverable questionnaires; the graduates were considered non respondents. However, a number of graduates were contacted by telephone in order to increase the response rates in certain programs.

Completed questionnaires were read and coded for occupation, industry, location and salary information, and checked for completeness. Coded questionnaires were data entered using a personal computer and a database software program.

Once all returned questionnaire responses were entered, the data were sorted by individual training program and program group. The data were then tabulated and computer analyzed to obtain information for the **Employment Statistics Report** and for further analysis.

Response

The survey was not a random sample survey. Rather, all graduates of the programs, outlined under the heading Scope above, were surveyed and a percentage of this population responded. Results describe the entire respondent population and statistical methods used in random sample surveys do not apply. It should be noted that results of the survey relate to the respondents' situation at the time of the survey.

Response Rate

For the 1988-89 Graduate Follow-Up, the survey questionnaire was sent to 2,217 graduates from 105 training programs. 1,276 useable questionnaires were returned for an overall response rate of 58% (see Table 1), an increase of 7% from last year's survey. Within program categories, Technology programs had the highest response rate at 61%. (Please see the Table of Contents for a listing of the programs included within each program group).

Table 1
Response Rate

Program Group	Graduates	Respondents	Response Rate
	#	#	%
Business	376	218	58
Health	596	352	59
Industrial	730	398	55
Service	256	150	59
Technology	259	158	61
Overall	2,217	1,276	58%

Employment Status

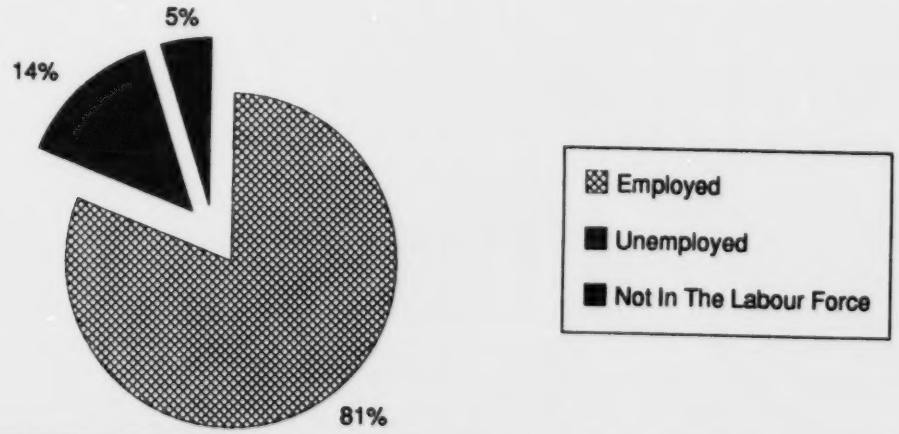
Of the 1,276 survey respondents, 81% (N=1,037) were employed at the time of the survey (see Table 2 and Figure 1). This percentage figure includes graduates, who were employed on a full time, part time or self employed basis, in both training related and other occupations. Health programs had the highest overall employment rate; 91% of respondents had jobs.

As indicated in Table 2 and Figure 1, 14% (N=171) of all respondents were unemployed, i.e. not employed and looking for work, while 5% (N=68) were not in the labour force, i.e. not employed and not looking for work. Industrial program respondents had the highest unemployment rate at 21%.

Table 2
Respondents: Employed, Unemployed, or Not In The Labour Force

Program Group	Employed		Unemployed		Not In The Labour Force		Respondents
	#	%	#	%	#	%	#
Business	167	77	31	14	20	9	218
Health	322	91	16	5	14	4	352
Industrial	302	76	82	21	14	3	398
Service	116	77	23	16	11	7	150
Technology	130	82	19	12	9	6	158
Overall	1,037	81%	171	14%	68	5%	1,276

Figure 1:
Respondents: Employed, Unemployed, or Not In The Labour Force
1988-89



Of the 1,037 respondents employed at the time of the survey, 89% (N=921) were employed in training related occupations, i.e. those that required some or all of the skills gained in the program (see Table 3). Respondents from Health programs had the highest rate of training related employment at 99%.

Those respondents working in non training related occupations (N=116) identified a lack of available jobs as the major reason for not having obtained training related employment.

Table 3
Training Related and Non Training Related Employment

Program Group	Training Related Employment		Non Training Related Employment		Total Employed
	#	%	#	%	#
Business	148	89	19	11	167
Health	319	99	3	1	322
Industrial	233	77	69	23	302
Service	103	89	13	11	116
Technology	118	91	12	9	130
Overall	921	89%	116	11%	1,037

Further analysis of respondents employed in training related occupations indicated that overall, 82% (N=760) were employed full time, 16% (N=146) were employed part time and 2% (N=15) were self employed (see Table 4).

Within program groups, respondents from Technology programs had the highest rate of full time employment in training related occupations at 96% (N=114). Nearly one-third (N=103) of Health program respondents in training related occupations were working part time. As well, the survey indicated that, overall, 64% (N=94) of respondents working part time in training related occupations were looking for full time employment.

Table 4
Training Related Employment: Full Time, Part Time, and Self Employed

Program Group	Full Time		Part Time		Self Employed		Total Training Related Employed
	#	%	#	%	#	%	#
Business	129	87	17	12	2	1	148
Health	215	67	103	32	1	1	319
Industrial	217	93	10	4	6	3	233
Service	85	82	14	14	4	4	103
Technology	114	96	2	2	2	2	118
Overall	760	82%	146	16%	15	2%	921

As shown in Table 5, 75% (N=128) of respondents, who were unemployed at the time of the survey, indicated that they had worked at some time since graduation. 54% (N=37) of those not in the labour force, at the time the survey was conducted, had worked at some time since completing their program at SIAST.

Also, approximately one-quarter of respondents, either unemployed or not in the labour force at the time of the survey, were scheduled to return to work within the next year.

Table 5
Presently Unemployed or Not In The Labour Force But Who Have Worked Since Graduation

Labour Force Status	Respondents Who Have Worked Since Graduation		Total
	#	%	#
Unemployed	128	75	171
Not In The Labour Force	37	54	68

Of those respondents (N=171) who were unemployed, i.e. looking for work at the time of the survey, all but three explained why they could not find a job. 30% indicated they could not find employment because no jobs were available (see Table 6). One fifth (20%) felt their lack of experience acted as a deterrent to finding work, while another 18% attributed their not having a job to their preference of employment location. 13% said that seasonal factors prevented them from being employed at the time of the survey.

Table 6
Unemployed:
Reasons for Being Unemployed

Reason	#	%
No Jobs Available	51	30
Not Enough Experience	33	20
No Jobs In Desired Location	31	18
Employment Is Seasonal	21	13
Require Further Training	6	4
Other Reasons	26	15
Total	168	100%

As indicated in Table 7, there were two main reasons given by respondents for being out of the labour force: 79% had returned to school; another 15% cited family responsibilities.

Table 7
Reasons for Not Being In The Labour Force

Reason	#	%
Returned To School	54	79
Family Responsibilities	10	15
Other Reasons	4	6
Total	68	100%

Training Program

In Table 8, survey respondents rated five specific aspects of their program on a scale ranging from excellent to very poor (see Table 8).

Table 8
All Respondents:
Rating of Specific Program Aspects

Aspect of Program	Excellent	Very Good	Good	Poor	Very Poor
	%	%	%	%	%
Instruction	17	36	39	7	1
Facilities/Equipment	18	32	39	10	1
Length of Program	11	27	46	14	2
Curriculum Content	10	36	46	7	1
Methods of Testing	10	33	47	8	2

Respondents were also asked to rate the overall quality of their specific training program. Table 9 indicates that from an overall perspective, programs were rated very highly by survey respondents. Business, Health and Industrial program groups were rated as good to excellent by 97% of graduate respondents in those programs. 95% of graduate respondents in Service programs and 93% in Technology programs gave a similar rating to their programs.

Table 9
All Respondents:
Rating of Overall Program Quality According to Program Group

Program Group	Excellent	Very Good	Good	Poor	Very Poor
	%	%	%	%	%
Business	7	52	38	2	1
Health	11	42	44	2	1
Industrial	15	46	36	3	0
Service	9	41	45	5	0
Technology	12	44	37	7	0
Overall	11%	45%	40%	3%	1%

Respondents, who had been employed at some time since completing their program, were asked to rate their training program according to how well it had prepared them for work. As indicated in Table 10, 66% of respondents indicated that their training program had trained them from well to very well. Another 27% felt that their training program had prepared them adequately. Only 7% indicated their training had prepared them poorly for the job they had.

Among program groups, Business, at 71%, had the highest percentage of respondents who indicated that their program had prepared them well or very well for their job. Only 3% of Service program respondents indicated that their training had prepared them poorly.

Table 10
Respondents Employed at Some Time Since Graduation: Rating of Training Program Job Preparedness

Program Group	Level Of Preparedness			
	Very Well	Well	Adequately	Poorly
	%	%	%	%
Business	24	47	23	6
Health	24	41	27	8
Industrial	26	40	29	5
Service	26	44	27	3
Technology	25	36	29	10
Overall	25%	41%	27%	7%

Overall, as shown in Table 11, 77% (N=985) of respondents indicated that their training program had met their expectations. Within program groups, the highest satisfaction level was in the Health sector. 84% (N=295) of Health program respondents indicated their expectations had been met.

Table 11
All Respondents:
Respondents' Level of Satisfaction Regarding Program Expectations

Program Group	Program Met Expectations		Program Did Not Meet Expectations		Total Respondents
	#	%	#	%	#
Business	169	78	49	23	218
Health	295	84	57	16	352
Industrial	299	75	99	25	398
Service	103	69	47	31	150
Technology	119	75	39	25	158
Overall	985	77%	291	23	1,276

As indicated in Table 12, 52% (N=664) of all respondents were not residents in the city in which the campus is located.

Table 12
All Respondents:
Geographic Accessibility to Program

Mobility Status	#	%
Moved In To Program Location	664	52
Respondent In Campus Location	612	48
Total	1,276	100%

Further Training After Graduation

14% (N=183) of respondents had enrolled in some type of further training at the time of the survey (see Table 13). At 23% (N=51), Business program graduates had the highest enrollment in further training.

Slightly fewer than half (46%) of the respondents (N=183) were enrolled in full time programs.

Table 13
Respondents Enrolled in Further Training

Program Group	Enrolled At Time Of Survey		Total Respondents
	#	%	#
Business	51	23	218
Health	34	10	352
Industrial	62	16	398
Service	20	13	150
Technology	16	10	158
Overall	183	14%	1,276

Table 14 shows that four out of every five respondents (N=145) were engaged in further studies to raise their general educational level, or to upgrade their skills in the same field. Another 15% (N=27) were interested in pursuing a new field of study or area of employment.

Table 14
Respondents Enrolled in Education/Training Programs: Reasons for Enrolling

Reason	#	%
Further Education/Upgrading In The Same Field	145	80
Pursuing A New Field Of Study/Work	27	15
Could Not Find A Suitable Job	9	5
Total	181	100%

When asked to indicate the type of program in which they were enrolled, one-third (N=59) were taking further training at a more advanced level in the same area of specialization, while 17% (N=31) had selected a different SIAST program (Table 15). A quarter of the respondents (N=46) were taking another post secondary program, while a further one-quarter (N=44) had chosen a university program.

Table 15
Kinds of Training In Which Respondents Were Enrolled

Type of Training	#	%
Further Training In The Same SIAST Program Field	59	33
A Different SIAST Program (any campus)	31	17
Other Post Secondary Programs	46	26
University Program	44	24
Total	180	100%

Demographics

Age

As indicated in Table 16, the average age of respondents was 25 years. The average age ranged from 24 to 26 within the different program groups.

The average age of those employed and not employed within the different program groups was, generally, similar to the total respondent cohort. However, within the Health program group, the average age of employed respondents was 26 as compared to 22 for respondents not employed at the time of the survey.

Table 16
Average Age of Respondents

Program Group	All Respondents	Employed	Not Employed
Business	24	24	25
Health	26	26	22
Industrial	25	24	26
Service	26	26	27
Technology	24	24	23
Overall	25	25	25

Gender

Overall, 48% (N=609) of survey respondents were male and 52% (N=667) were female (see Table 17). However, there was a wide variation in the proportion of male and female respondents within program groups. For example, 94% of Industrial program respondents were male while 93% of Health program respondents were female.

Table 17
All Respondents: Program Group by Gender

Program Group	Males		Females		Total Respondents
	#	%	#	%	#
Business	58	27	160	73	218
Health	24	7	328	93	352
Industrial	376	94	22	6	398
Service	27	18	123	82	150
Technology	124	78	34	22	158
Overall	609	48%	667	52%	1,276

Furthermore, a comparison of the employment status of male and female respondents indicated some difference between the two (see Tables 18 and 19). Among male respondents, 78% (N=477) were employed, 18% (N=108) were unemployed and 4% (N=24) were not in the labour force, Female respondents indicated that 84% (N=560) were employed, 9% (N=63) were unemployed and 7% (N=44) were not in the labour force.

Within program groups, the highest rate of employment for both male and female respondents was Health at 92%. There were, however, significantly fewer male respondents within the Health program area.

Table 18
Male Respondents: Employed, Unemployed, or Not In The Labour Force By Program Group

Program Group	Employed		Unemployed		Not In The Labour Force		Total Male Respondents
	#	%	#	%	#	%	#

Salary

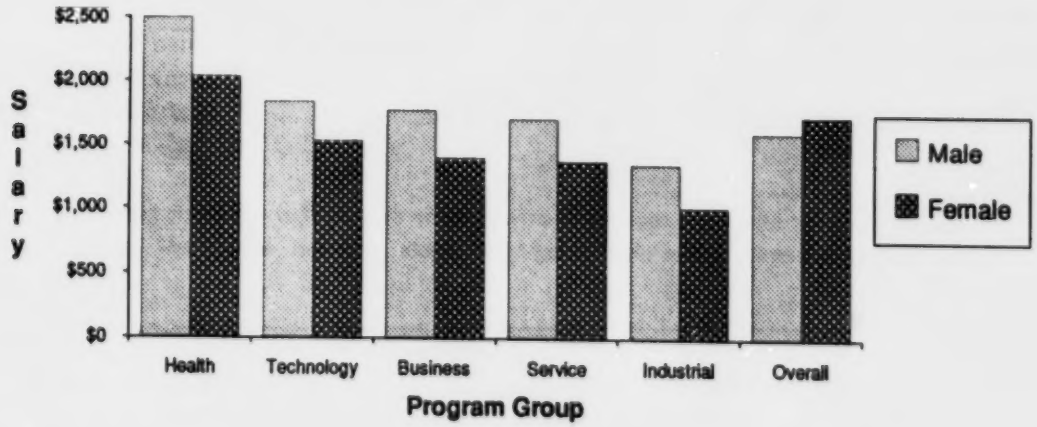
As indicated in Table 20 and Figure 2, the average gross monthly salary for respondents employed full time in training related occupations was $1,658. The highest monthly salary, $2,065, was reported by respondents in training related occupations in the Health field.

Overall, the average gross monthly salary for females at $1,720 was slightly higher than the average gross monthly salary for males at $1,586. This can be attributed to the large number of female respondents in Health programs, the group with the highest average salary.

Table 20
Respondents Employed Full Time in Training Related Occupations: Average Gross Monthly Salary by Gender

Program Group	Male	Female	Overall
Business	$1,764	$1,391	$1,517
Health	$2,491	$2,033	$2,065
Industrial	$1,340	$1,006	$1,326
Service	$1,701	$1,365	$1,410
Technology	$1,832	$1,527	$1,765
Overall	$1,587	$1,720	$1,658

Figure 2:
Respondents Employed in Full Time Training Related Occupations: Average Gross Monthly Salary By Gender By Program Group 1988-89



As an optional question on the survey questionnaire, respondents were given the opportunity to indicate if they belonged to either of the following two groups: people of Indian/Native ancestry or people with a physical disability. The results, in Table 21, show that of the 1,276 respondents who answered the questionnaire, 2% (N=28) of respondents said they were of Indian/Native ancestry, while 1% (N=10) of respondents identified themselves as having a physical disability.

Table 21
All Respondents:
Optional Identification of Special Categories

Identification	#	%
Person of Indian/Native Ancestry	28	2
Person with a Physical Disability	10	1

Labour Market Data

As shown in Table 22, an analysis of the occupations in which respondents found training related employment indicates that approximately six in ten (62%) were working in three broad occupational categories: Medicine and Health (34%), Product Fabricating, Assembling and Repairing (15%) and Natural Sciences, Engineering and Mathematics (13%).

Table 22
Respondents Employed in Training Related Occupations: By Occupation Category

Occupation Category	Respondents Employed in Training Related Occupations	
	#	%

Program Statistics

User's Guide

In addition to a description of various aspects of the general survey response provided in the Overview of Results section, results for individual training programs are grouped by program type, i.e. Business, Health Industrial, Service and Technology, and are reported on a single page containing the following information for each training program:

-program name and campus
-response rate
-employment status
-employment description
-overall rating of training
-five year comparison
-notes

Each of these sections is described in detail below.

Program [1] **Campus** [2]

Number of Graduates 50 [3] Number of Respondents 40 [4] Response Rate 80% [5]

1 The name of the training program.

2 The SIAST campus location.

3 The number of graduates surveyed.

4 The number of graduates who returned completed questionnaires. All survey results are based on this population.

5 Percentage of graduates who responded to the survey.

Employment Status (% of all respondents) [6]				
Training Related Employment: [7]			Training Related Employment	60% [12]
Full Time	40% [8]		Non Training Related Employment	20% [13]
Part Time	15% [9]		**Total Employed**	**80%** [14]
Self Employed	5% [10]		**Unemployed**	**15%** [15]
Total	60% [11]		**Not In The Labour Force**	**5%** [16]

6 This section describes the employment status of respondents, at the time of the survey, approximately six months after graduation.

7 Respondents employed in an occupation related to their training (requires or uses some or all of the skills and knowledge acquired in the program) are classified as being in **training related** employment.

8 Respondents employed **full time** in training related occupations.

9 Respondents employed **part time**, i.e. less than 30 hours per week, in training related occupations.

10 Respondents **self employed** in training related occupations.

11 Sum of all respondents in training related employment.

12 Respondents employed in occupations **related to** their training.

13 Respondents employed in occupations **not related to** their training.

14 The total of all **employed** respondents (sum of training related and non training related).

15 Respondents **unemployed** at the time of the survey (not employed and **looking** for work).

16 Respondents **not in the labour force** (not employed and **not looking** for work).

Note: The sum of total employed, unemployed and not in the labour force comprises all respondents.

Employment Description (% of respondents with training related employment) [17]

Occupation [18]	Accountant	60%	Secretary	6%
	Accounting Clerk	34%		
Industry [19]	Business Service	40%	Retail	5%
	Provincial Government	15%	Petroleum	5%
	Education	5%	Other Industries	30%
Location [20]	Regina	40%	Other Sask. locations	10%
	Saskatoon	20%	Alberta	20%
	Moose Jaw	10%		

Salary (Monthly - Full Time, Training Related): [21] Average $1,751 [22] Range $1,100 to $2,652 [23]

17 Description of various aspects of employment, i.e. occupation, industry, location, salary, for respondents employed in training related occupations.

18 Occupations of those in training related employment, classified into categories using the Canadian Classification and Dictionary of Occupations (C.C.D.O.).

19 Industries of the employers of respondents in training related occupations. Industries are categorized using the Standard Industrial Classification for Saskatchewan (S.I.C.).

20 Locations of employment for respondents in training related occupations, based on employer's address and classified using the Saskatchewan Hospital Services Plan (S.H.S.P.) coding system.

21 Gross monthly salary, i.e. before deductions, for those working full time in training related occupations.

22 The average of the reported gross monthly salary for respondents in full time, training related occupations.

23 The range of lowest to highest monthly salaries for respondents in full time, training related employment.

Overall Rating of Training (% of all respondents) [24]

Excellent	Very Good	Good	Poor	Very Poor
20%	20%	20%	20%	20%

24 All respondents were asked to rate the overall quality of their training program using a five-point scale ranging from excellent to very poor. Percentages are based on all responses to this question.

Five Year Comparison (% of all respondents in each year) [25]

Respondents Employed Full Time:	84-85	85-86	86-87	87-88	88-89
Training Related Occupations **26**	58%	64%	56%	77%	62%
All Occupations **27**	74%	81%	83%	81%	71%

25 This section presents information from this year's survey as well as results from the Graduate Follow-Up Survey for the years 1984-85 to 1987-88.

26 Employment rates for respondents employed full time in training related occupations.

27 Employment rates for respondents employed full time in any occupation.

A notes section appears at the bottom of each page. One or more notes may be included to provide further details about the employment statistics or some aspect of the training program which may affect employment.

Some examples of the types of notes that may be used are as follows:

Notes

- Caution: low response rate.
- Caution: small number of respondents.
- * Represents one respondent.
- 2 respondents employed part time were looking for full time employment.
- 3 unemployed respondents have worked since completing the training program.
- 2 respondents were unemployed but scheduled to return to work in the next year.
- 1 respondent not in the labour force had returned, full time, to the same SIAST program.
- 2 unemployed respondents had returned, full time, to other education.
- All 3 respondents were female.
- Competency based education program.
- Optional co-operative education program.
- Mandatory co-operative education program.
- This program is subject to seasonal employment demand.
- Program offered in one week to four week modules.
- New to survey.

See User's Guide for explanation of percentages and other information.

Appendices

Appendix A:
1989 Graduate Follow-Up Survey Questionnaire

Saskatchewan Education

1989 Graduate Follow-Up Survey

If the information on this label is not correct, please indicate any changes:

This survey of SIAST graduates provides information for planning programs and assists those considering post secondary education. Please take a few minutes to answer the questions which apply to your situation. Note: Your name will not be used and all responses are treated as confidential.

I. Graduate Information

1. Did you graduate from a SIAST program? a.Yes ☐ b.No ☐ If No, please return the questionnaire.

2. a. Name of program: _____ b. City: _____

3. Did you graduate between July 1, 1988 and June 30, 1989? a.Yes ☐ b.No ☐

4. If No (3b.), when did you graduate? a. Year: |__|__| b. Month: |__|__|

Office Use
prcode |_____|

II. Employment Status

5. Please indicate your **present** employment status: (Please check only **one**.)

   a. Employed. ☐ Please continue with **Question 6**.

   b. Not employed. ☐ Please go to **III. Not Employed, Question 12, Page 2**.

6. Please describe your present job:

   a. Job title: _____
   (Position, classification.)

   b. Employer: _____
   (Company name, type of business.)

   c. Location of employer: _____
   (City, town or nearest town.)

   d. Province (if not Saskatchewan): _____

   e. Approximate gross monthly salary: $_____

Office Use

4 job |_____|

2 ind |_____|

5 loc |_____|

001 ct |_____|

sal |_____|

Please continue with Question 7, Page 2.

II. Employment Status - continued

7. Is your employment **directly related** to the education/training you received from your institute program? (ie. Does your job use some or all of the skills acquired in your training program?)

   a.Yes ☐ Please go to **Question 9**. b.No ☐ Please continue with **Question 8**.

8. If you are **not** in a training related job, why? (Please check only **one**.)

   a. No longer interested in this field. ☐ c. No jobs available. ☐

   b. Not qualified for training related jobs. ☐ d. Other reasons. ☐

9. How long have you worked in your present job? _____ months.

10. Your present job is: (Please check only **one**.)

    a.Full time. ☐ b.Part time (less than 30 hrs./wk.). ☐ c. Self employed. ☐

11. If employed part time or self employed, are you **looking for** a full time job? a.Yes ☐ b.No ☐

Please go to IV. Education/Training, Question 17, Page 3.

III. Not Employed (Note: Answer this section only if **not employed at the present time**.)

12. Have you **worked at all** since completing your training program? a.Yes ☐ b.No ☐

13. Are you scheduled to return to work **in the next year** (eg. seasonal lay-off)? a.Yes ☐ b.No ☐

14. What is your **present** situation? (Please check only **one**.)

    a. **Looking** for work. ☐ Please continue with **Question 15**. b. **Not looking** for work. ☐ Please go to **Question 16**.

15. **Looking for work** - What has prevented you from finding a job? (Please check only **one**.)

    a. No jobs available. ☐ d. Employment is seasonal. ☐

    b. Not enough experience. ☐ e. No jobs in desired location. ☐

    c. Require further training. ☐ f. Other reasons. ☐

Please go to IV. Education/Training, Question 17, Page 3.

16. **Not looking for work** - Why are you not looking for work? (Please check only **one**.)

    a. Returned to school. ☐ c. Health/disability. ☐

    b. Family responsibilities. ☐ d. Other reasons. ☐

Please go to IV. Education/Training, Question 17, Page 3.

IV. Education / Training

Continuing Education

17. At **present** are you enrolled in any education/training program?

a.Yes ☐ Please continue with **Question 18**. b.No ☐ Please go to **Training Evaluation, Question 21**.

18. My present training/education is: a. Full time. ☐ b. Part time. ☐

19. Why are you taking this education/training? (Please check only **one that most applies**.)

a. Could not find a suitable job. ☐ c. Pursuing a new field of study/work. ☐

b. Further education/upgrading in the same field. ☐

20. In what type of program are you presently enrolled? (Please check only **one**.)

a. Further training in the **same** SIAST program. (eg. second year, further modules, upgrading.) ☐ c. University program. ☐

b. A different SIAST program (any campus). ☐ d. Other post-secondary program. ☐

Please continue with Training Evaluation, Question 21.

Training Evaluation

21. Did you move **from** another location to the city where your SIAST training was held? a.Yes ☐ b.No ☐

22. Please rate each aspect (a. to f. below) of the SIAST program you completed, using the following scale:

Excellent = **1** Very Good = **2** Good = **3** Poor = **4** Very Poor = **5**

a. Overall quality: _____ d. Length of program: _____

b. Instruction: _____ e. Curriculum content: _____

c. Facilities/equipment: _____ f. Methods of testing: _____

23. Did the training program meet your expectations? a.Yes ☐ b.No ☐

24. If you have been **employed** since completing the program, how well did the training program prepare you for your job? (Please check only **one**.)

a. Very Well. ☐ b. Well. ☐ c. Adequately. ☐ d. Poorly. ☐

Please continue with V. Demographic Information, Question 25, Page 4.

V. Demographic Information

25. Your present age: ☐

26. Please check: a. Male. ☐ b. Female. ☐

27. **Optional:** If you wish to identify yourself as a member of the following groups, please check:

a. Person of Indian/Native Ancestry. ☐ b. Person with a physical disability. ☐

Comments

28. Please provide any comments about your training program or experience in finding employment:

Thank you for completing the questionnaire.

Please return it in the postage paid envelope provided.
